PHILADELPHIA, Pa., Aug. 5.—[Special.]—To the Editor of the Times: Various accounts have appeared this week of the publication of Judge Jeremiah S. Black, in the last magazine, of "Secession Secrets" by various ex-secretaries and others. Mr. Davis now chooses this (Mr. Davis) with visible reluctance to the task, proceeds his long and [illegible] everything to [illegible]. Mr. Davis also makes a [illegible] of Judgment which he expresses the opinion that if Senator Hill [illegible] would have been [illegible] and that Mr. Davis and all other Secessionists should have proceeded for the sole purpose of making their constitutional objections and their position secure. Such a complacent act of compliance would have been acknowledgment of their right to secede, and they would have hastened out of the Union with [illegible] their self-respect. Mr. Davis will not [illegible] to [illegible] Mr. Davis [illegible] and [illegible] Mr. Davis acted in secret. South Carolina acted openly but President Adams, [illegible] Mr. Davis acted in secret also. It is the privilege of Secession that he claimed [illegible].

JEFF DAVIS PLEADS.

Judge Black [illegible] assumed to describe my conduct and to assign to it a motive which I pronounce utterly false, [illegible] Senator [illegible] to the last moment to avert the evils which have ensued, for in conference with others of my colleagues I did urge upon Mr. Buchanan's Cabinet, with which I had confidential relations, at once the Fort Sumter, with whom I held [illegible] authority, as I had reason to do, that by this course a peaceful solution of the issues which have threatened war could be effected, and that the [illegible] would be [illegible] to [illegible] the [illegible] of Charleston and [illegible] to [illegible] [illegible] [illegible]

FORT WASHAKIE, Wyo., Aug. 1.—[Special.]—The Democratic party left Cheyenne [illegible] at 7 o'clock this morning upon an [illegible] to the public mind. The line was made to Little Popo Agie, thirteen miles, and a continual [illegible] dangers of heavy [illegible] was made to Fort Washakie every [illegible] road. The party arrived this afternoon—a cold, disagreeable afternoon—a cold, disagreeable [illegible] from Cheyenne, and 27 miles from Rock Creek. There was very little change of scene, which, compared to Dakota. The Cottonwood River is the largest body of water [illegible] Valley is very beautiful, with numerous [illegible] and rich grazing. It is a country peculiarly adapted to [illegible] and [illegible] Sioux as English consider [illegible] conquering an [illegible] of [illegible] of only a mile long, and half [illegible] wide, and [illegible] and [illegible] from the West Nove Mountain [illegible] many prominent points among them Fre mont's Peak, 13,790 feet high; Wind River Peak, 13,490 feet; and Wind River Peak, 13,000 feet high. Even are very heavily wooded regions, covered with pine, of no other quality, which is [illegible] to [illegible] to become an important commercial factor. To the southward the party saw the Sweetwater Range and the peculiar Seminole Mountains. Here a [illegible] amount of mining is progressing. Down by a Rock Pass City, Atlantic, and Miners' Delight [illegible] digging on the creek and were [illegible] mining claims. From there [illegible] $1,000,000 has taken out to throw down to the gold and prospects of large size found in the streets. The people are hardy [illegible] and excited [illegible] to [illegible] the rules and [illegible] to give more order [illegible] to work the placers. The miners [illegible] the party [illegible] of red [illegible], coin, [illegible], [illegible], gold, silver, and lead.

[illegible] DESCRIPTION.

The trail around the [illegible] and South of the stream which empty into the Sweetwater and Big Horn Rivers. There was little to [illegible] the monotony of the dead and [illegible] except to indulge in the occasional [illegible] through the [illegible] Indians, until the party reached Washakie, at the edge of the [illegible] Reservation. This reservation is an [illegible] to the treaties [illegible] purchase of Wyoming Territory lying between Washakie and Fort Laramie Park. It is [illegible] and full of large streams abounding in fish. It is guaranteed that Chief Washakie will be allowed to [illegible] his Great Father to hunt and fish [illegible] to his heart's content. The Shoshones or Snake Indians are peaceful and [illegible] tribe from the Indian agency and [illegible] from Fort Washakie, or old Camp Brown. The Arapahoes are [illegible] enemy [illegible] across the mountains [illegible] Wind River and to the east [illegible] Black Coal. In [illegible], the Indian Agent, has the Indians largely under his control, and is a great civilizer [illegible] among them.

The two tribes, though apparently on [illegible], intermingle and hold friendly relations. The Shoshones are the more [illegible] and are largely employed by the [illegible] to run the supply trains. There are about 1,500 Indians here—the last of the Arapahoes and the Shoshones. Since the Arapahoes are [illegible] to an equal [illegible] among the [illegible], and [illegible] to be permitted by the Government. The last cattle between the Shoshones and the tribes occurred [illegible], and consisted in the [illegible] and partial annihilation of the tribe. The Shoshones were on the reservation in 1868, and have been peaceably the [illegible] since.

A MEMORIAL STONE.

Prior to the arrival of the Democratic party all civilians were ordered off the reservation, and left [illegible] the [illegible] of the Indians. Upon reaching the [illegible] the party was met by the United States [illegible] and escorted to the [illegible]. BADAJOZ.

A GREEN ARMY OF MUTINY.

LONDON, Aug. 5.—The Times' correspondent at Madrid says the rising of the soldiers at Badajoz under a non-commissioned officer, Lieut. Ruiz, with some few others, for the insurgents-based slight accession to the military and the interest of the regimental and municipal authorities. It is decidedly whether the movement was ever serious. It is stated in some quarters that the outbreak was only part of the program of a gigantic revolutionary conspiracy, but it certainly alarmed the Government, which for a long time has been making extraordinary efforts to destroy the republican cause of Spain.

MORE ARRESTS.

A special from Paris says that at a dinner in Madrid, a Senator said, Paris Zorilla, whose name was mentioned in the proclamation of the insurgents at Badajoz the President of the Republic, made a speech, in which he declared, in an unfair manner, that he would not return to Spain until the Republic had been established there.

A STRICT CENSORSHIP.

MADRID, Aug. 5.—Cole, Mason, correspondent of the Times in Estremadura, will make a short inquiry into the causes of the outbreak at Badajoz. The report recently issued by the officials at Badajoz for electing the insurgents to surrender, shows, The insurgents numbered one hundred. The General commanding the troops, and four officers in their early twenties. The letter of the Republican correspondent has one of the best men of the insurgents.

ARRIVALS AT MADRID.

LISBON, Aug. 5.—The authorities at Evora have interned 60 insurgents and some of other fugitives have fled. They will all be interned in a fortified town on the coast. The wounded officers of the rising were removed to a hospital at public account and had a deficiency of £1,000 has been discovered in the Badajoz treasury.

THE INSURRECTION.

MADRID, Aug. 5.—The Imparcial says the representations of the work were Cia, Cabrera, Gen. Cal. Cepa, and Gen. Martos, Lieut.-Col. Vega, and Maj. Ruiz Garcia. The latter was an active leader in the late Carlist rising in Catalonia. The Liberal says that Zorilla has been requested by the Government to return to Spain, but has declined. It is said that the object of the insurgents was to secure a republican movement in favor of Zorilla. The Government has taken steps to prevent the return of Zorilla and other refugees.

IN THE TOILS.

LISBON, Aug. 5.—A dispatch from Lieutenant says that Manuel Gallegos arrived there on Saturday as a tourist from America and was subsequently to act as the agent of being an accomplice to another political offender.

Senor Gallegos was arrested on board the steamship City of Richmond on return from America. The vessel is now at anchor in the river Tagus, where no one is allowed to communicate with her. Senor Gallegos was in connection with Cipriano Costa and Senor Stephens has been found on the prisoner, who will be one of fourteen citizens and South will leave the American Government to protect him.

ARRESTS CONTINUING AT MADRID.

LISBON, Aug. 5.—The chief of Carlists, Estremoz, Elvas, Figueira, and Tejara, arrested with having in their possession arms and plots for the destruction of buildings and bridges, has been taken. All the citizens disarmed and public.

The Estafeta (Madrid), in stating the news to-day, says that the soldiers who took part in the Badajoz revolt are all Carlists. The Estafeta says that the prisoners would confirm the part of their party.

[illegible] Aug. 5.—[Special.]—Senor Castelar, who is reported to have been summoned to Liverpool owing, and a publication in Barcelona and New York, that some Spanish Republicans in Chicago and New York are implicated in the Badajoz affair, has been in communication with the [illegible] of Spain, and a [illegible] of Cabinet Ministers, and a [illegible] of the Spanish Republicans, and a [illegible] of the Spanish Republicans, and a [illegible] of the Spanish Republicans

MONDAY'S MASSACRE.

At the Kentucky Election Monday the Republicans Blacks Began "Killing Democrats."

After They Had Finished Their Bloody Work the Record Was as Follows:

Smith, Fry and Sanghouse Dead; Dunn and Lincoln Mortally Wounded; All Colored Republicans.

Smith and Hamilton, the White Democrats Who Were "Bulldozed," Slightly Hurt.

Democratic accounts of the Massacre in Garrard County.

LOUISVILLE, KY., Aug. 5.—[Special to the Republican.]—Garrard County stands in the front ranks. It has been heavily for some time that Mr. Smith, the Republican candidate for the Legislature in this county, had sent for Legislators to this county, had sent for Legislators to this county for two days previous Jennings to intimate the voters for him. This morning about 10 o'clock a dozen more from Democratic men reported that the two Democrats had taken charge of the polls and would not let any Democrats vote; that they had broken into one room with a stove, and had driven him from the polls; about a half-dozen men from Lancaster reported to an extra and the same Democratic friends were not to permit, upon to parties from another county. The Lancaster boys said the party from here was coming, and told the negroes that they would stand by them. The party from here had been at Boonesville last a short time when a quarry, believed the Smiths, threw a rock at William Lynch, a white man, striking him on the head. He then stood on Lynch when he could draw his pistol and fired. The firing then became general, with the white men on one side and nearly negroes on the other. About seventy-five shots were fired, when the negroes retreated, it was found that three negroes were killed outright and two mortally wounded. The negroes killed are: Phil Fry, Will Dunn, and Green Sanghouse, Alexander Jim Lincoln and George Dunn. On the white side William Smith had a ball passed in the calf of the leg, and James Hamilton a ball wound in the hip. The Hamilton wound was dressed after the fight and was fatal. The negro, Phil Fry, who precipitated the difficulty, had twelve wounds in his body.

Reports had been received of a difficulty at the Hudson Precinct in this county, which might have led a bloody result. The difficulty began between James Johnson and Hank Elam, but soon there were a dozen on each side, or white. About fifty shots were fired, which resulted in five negroes wounded, one mortally and one badly killed. The wounded are Aaron Jones, shot in the shoulder; Hank Elam, wound in the leg; James Elam, scratch; wounded in the breast; Thomas Winston, in the hip, and a negro, supposed to be Jack Johnson, shot in the head. Johnson's life was killed and six wounded, and one badly killed. Quite a good day's work for one county.

FLEMING, KY., Aug. 4.—[Special to Courier-Journal.]—In an election row at Hinkleville today Phil Fry and George Smith (colored) were shot and killed, and Green Sanghouse, James Lincoln and Will Dunn, also colored, wounded—the first named mortally, and the two latter seriously. William Arnold and Robert Hamilton, white men from Lancaster, were wounded and arrested. The very particulars gathered were from Nelson Lincoln, of Jessamine, a brother of one of the wounded men, who came here after weighed, etc. Its says that a white man from Sugar Creek had sold out to both parties, and that when he tried to vote a negro named Jonathan tried to prevent him. This started the row, which was quarrel for a time, but a magistrate of both parties from Lancaster got a truce and at last succeeded in getting the parties separated. Fry, with his pistol, it is reported, had shot Arthur's hat and pretended to a fight. At Richard Elam had his pistol shot from his hand by Arthur, who then fired at Elam, but missed him. Fry, Arthur, two negroes and a white man, Smith, were all in a group, when Smith fired and Fry fell dead. Arthur was shot in the leg, and Dunn, Sanghouse and Lincoln were wounded.

The Sole Republican Account Confirmed.

FLEMING, KY., Aug. 5.—The riot at Hinkleville was caused by the death of George Smith, Phil Fry and Green Sanghouse, William Dunn and Jim Lincoln were mortally wounded. Those were all colored Republicans. William Arnold and ——— Hamilton, white, and Democrats, were slightly wounded.

A CURIOUS COLLECTION.

Wax Figures Portray John W. Hunt-ington Sentenced to a Lunatic Asylum Around the World.

CINCINNATI, O., Aug. 5.—[Correspondent Enquirer-Journal.]—The extraordinary and valuable collection belonging to Mr. John W. Hunt-ington was disposed of this Grand Opera House this evening. The various articles contained in the collection have been placed in such position on the stage as to bring them before view and permit the indulgence to closely examine their features and artistic finish. The different articles are of such unusual interest, and in many cases of such peculiar merit, that it is almost impossible to describe them in any way adequate to their importance. The collection is very difficult, in all there are nearly 1,000 articles, each being individual characteristics of peculiar interest. In the collection are articles from China, Japan, Africa, Europe, Turkey, Egypt, Russia and Mexico. In the Japanese collection may be seen every variety of articles in exports and trade, gold trees and representing historical and fantastical scenes; here Hessian, native artists in their dresses and working in the skill of their profession of duplex coats also seen to a greater degree, several large ornamental pieces fashioned with elaborate figures in the relief and others showing rich habits in perfect form and striking details. Some seven or eight cases and cabinets each of a collection of coins, gold and silver, silver and copper, and of foreign stamps, and various articles, the combined the most wonderful in their fragments of the entire collection. Among the articles of the Turkey Indian collection of coins, which are of the most valuable, are those of the Ottoman Empire, and of the Egyptian Empire, and of the Egyptian Empire, and of the Egyptian

Lake Freights and Charters.

Vessel property was in active demand yesterday, and the upward movement of grain freights, as recorded in the previous issue of The Tribune, was further progressed. The passage of Chicago boats on the Buffalo market caused both the grain and coal charters to be made at that port, and there was a good demand for tonnage, and vessels in other markets, Toledo and Duluth in particular, were attracted to Buffalo.
